

CONTINUING EDUCATION

OVERCOMING COMMON CHALLENGES

in Sexual Assault Investigations

This training provides an overview of the neurobiology of trauma, consent, and overcoming the challenges of delayed reporting, inconsistent statements, and lack of force in a sexual assault investigations. Participants will learn to approach an investigation in a trauma-informed manner, assisting in building rapport with survivors, while aiding the outcome of an investigation.

This training is ideal for law enforcement and campus security, or those involved in the complaint resolution process in Higher Education Institutions.
