ABOUT THE TRAINING

Resilience is hosting a training for Higher Education Institutions as required under the Preventing Sexual Violence in Higher Education Act. Our training fulfills the annual training requirement for anyone on campus who could potentially receive a report of sexual violence. The content is highly specialized to those working at institutions of higher learning to cover the topics required by law which includes an overview of sexual assault, domestic violence and stalking laws, information on trauma response, how to support survivors, and much more!

This training is not the 40-hour training required for those who are serving as a Confidential Advisor at a Higher Education Institution. This training can be used however, for continuing education for confidential advisors and those involved in the complaint resolution process as defined under the Illinois' Preventing Sexual Violence in Higher Education Act.
