COVID-19 TESTING

Swedish Hospital offers two FREE ways to assess your COVID-19 related symptoms:

- Call our Help Line at 773-907-7700*
- Complete an [online screening](#)

If you have any of the following symptoms, or if anyone in your household has been diagnosed with the COVID-19 infection or has been in close contact with anyone with the COVID-19 infection, please take an assessment. Your results will be evaluated by a Swedish Hospital clinical expert, who may recommend testing.

- Loss or decrease in the sense of smell or taste
- Fever—temperature of 100° F or higher
- Cough
- Congestion
- Runny nose
- Sore throat
- Shortness of breath
- Flu-like body aches

Testing at Swedish Hospital will come at no cost to patients. Uninsured will be offered free testing and follow up care will be managed through our financial assistance and charity program. Those who are insured will not be responsible for any out-of-pocket costs related to being tested for COVID-19.

Appointments are required to use Swedish Hospital's drive through testing tent.

For information about COVID-19, safety behaviors and prevention, please visit [SwedishCovenant.org/covid](https://www.swedishcovenant.org/covid) or the [Centers for Disease Control website](#).

If your symptoms are worsening or you think you need emergency services, call 911 immediately.

*Interpretive services available in many languages.

The purpose of drive-through is purely to test for COVID19. Drive-through testing does not replace the need for professional evaluation of symptoms. Please continue to discuss symptoms with your primary care provider for further management or contact Swedish to establish care with a new primary care provider at [SwedishCovenant.org/findapcp](https://www.swedishcovenant.org/findapcp).
