

CELEBRATING RESILIENCE

FY2021
ANNUAL REPORT

RESILIENCE
EMPOWERING
SURVIVORS
ENDING SEXUAL
VIOLENCE

MISSION

Resilience is an independent, not-for-profit organization dedicated to the healing and empowerment of sexual assault survivors through non-judgmental crisis intervention counseling, individual and group trauma therapy, and medical and legal advocacy in the greater Chicago metropolitan area. Resilience provides public education and institutional advocacy in order to improve the treatment of sexual assault survivors and to effect positive change in policies and public attitudes toward sexual assault.

VISION

Resilience envisions a world where prevention efforts and global awareness of sexual violence expose rape myths, remove stigmas, eliminate rape and support all people as equal members of society.

RESILIENCE ASSOCIATE BOARD

The purpose of the Resilience Associate Board is to raise awareness of sexual violence and to take action through fundraising events and advocacy initiatives.

THE ASSOCIATE BOARD COMMITMENT

Join a community that shares a commitment to Resilience.

Associate Board members will attend quarterly meetings, join committees to work on specific projects, and get together at Resilience events.

Raise awareness of the entire spectrum of sexual violence.

The Associate Board will host events and amplify the message of Resilience.

Engage your networks in fundraising.

Each Associate Board member contributes \$500 annually through a combination of personal giving and soliciting donations.

The Associate Board has been a huge success, with the following accomplishments in FY21:

“I don’t know how I would’ve gotten through the year following my sexual assault without Resilience and the trauma-informed therapy that was available to me.”

– Stephanie Perkowski, former Resilience client and FY21 Associate Board President

WELCOME AND THANK YOU!

Dear Friends,

What an amazing year it has been for Resilience. Fiscal 2021 challenged our community—and our world—in ways that we’re sure all of us would have preferred to have consigned to the rearview mirror.

Despite—or maybe even because of—the pandemic’s ongoing challenges, we’ve learned just how resilient our staff and our community can be. We remain grateful to, and in awe of the courage of, the clients and survivors we treated, and the courage and strength of the staff who served them.

We chose “Celebrating Resilience” as our theme in fiscal ’21. As you’ll see in pages of this report, it was apt. Thanks to our partners, our staff, and supporters like you, we actually expanded our programs and services in fiscal 2021. Among our successes we:

- Created a three-year strategic plan in the face of the pandemic’s day-to-day uncertainties. The plan includes specific, measurable, attainable, timely and even aspirational goals that allowed us to fulfill our mission last year and will continue to allow us to meet the moments in the years ahead.
- Launched new events and initiatives such as the **Celebrating Resilience Speaker Series** and **Dinner Table Dialogues**
- Successfully hosted our first ever fully virtual **Evening of Impact**
- Became one of the first agencies in Chicagoland to resume in-person advocacy in local hospitals.

We didn’t do—we couldn’t have done—any of this alone. So a heartfelt thanks from the entire Resilience family to generous supporters like you. As you read the pages of this report, we hope you will share a sense of pride for the myriad ways your incredible generosity has made these successes possible. Countless people you may never meet but who nonetheless needed your help will live better lives because of you. We and the Resilience family celebrate you.

ADVOCACY PROTECTING SURVIVORS' CHOICES

Overview:

Our highly trained volunteers and staff offer medical advocacy in 16 Chicago emergency rooms, 24 hours a day (and also in Cook County Jail). Through legal advocacy, survivors learn their rights under the law and get help with any police reports, court proceedings, or other protections. As changing protocols, rules, and regulations continued on into FY21 to keep our communities safe, our advocates remained attentive and creative, adjusting and finding new ways to reach and support survivors in hospitals while keeping everyone safe.

PHONE ADVOCACY:

In November 2020, we introduced phone advocacy, helping Resilience stay in touch with survivors in hospitals while advocates were not allowed to be physically there. By March 2021, in-person services resumed in 10 hospitals, with the remaining number resuming in May 2021. Phone advocacy allowed our advocates to remain accessible to survivors despite changing rules and regulations in hospitals.

HOWARD BROWN PARTNERSHIP:

Our partnership with Howard Brown, established last fiscal year, continued on, allowing us to connect individuals to clinic services as an alternative to going into hospitals.

GENERAL ADVOCACY:

This team also provided more “general advocacy” than ever before because of an increased need for resources such as emergency shelter, food pantries, coat drives, and mutual aids as a result of the pandemic.

CIVIL ADVOCACY:

As we slowly but surely continue to see many institutions and communities getting closer to “back to normal”, our advocates are spending lots of their time helping survivors via “Civil Advocacy”. This often means accessing protective orders through the civil courts, keeping them safer from their perpetrator by legally prohibiting contact with the survivor. We’re pleased that as conditions become safer that more individuals are showing interest in training to become a Medical Volunteer Advocate.

“My advocate was empathetic and extremely kind. She provided a brave space for me.”

– RESILIENCE ADVOCACY CLIENT

“[My advocate] was very affirming and gentle as I reacted with thoughts of self-blame at not knowing about my options when I was harmed, or for the last four years since my assault. She spoke with me about how trauma affects people, and validated my strength and courage. Learning about my options and being added to the trauma therapy waitlist left me feeling much better about my situation, and feeling empowered.”

– RESILIENCE ADVOCACY CLIENT

TRAUMA THERAPY

I will be forever grateful for your help and my therapist professionalism and support. I will make sure to share your work with others so you can reach as many humans as possible. Thank you Resilience”

– Trauma Therapy Client

OVERVIEW:

Trauma Therapy offers survivors the chance to process and heal their sexual trauma. Resilience’s trauma therapy program provides free individual therapy sessions, in addition to group therapy, to help facilitate the healing journey. Our counselors and therapists utilize methods including art, dance movement, talk, and more. We began offering EMDR (Eye Movement Desensitization and Reprocessing) this fiscal year.

When the pandemic hit, Trauma Therapy knew that there would be clients who needed help not only remotely, but quickly and efficiently. As a result, the team adjusted to providing services remotely. Both individual therapy and support groups were made more accessible by going remote, offering safe spaces when and where clients could comfortably access it. Many clients have found that remote services are even more accessible and convenient to their lives during this time.

EXPANDING OUR IMPACT:

Because many survivors and their families need immediate support during this time, we began offering one-time appointments with our trauma therapists in spring 2021. These one-time sessions not only allowed survivors to get in touch with a mental health professional quickly, but also introduced our services to survivors who then decided to continue working with a therapist beyond that initial session.

“

“This group helped me open up, it helped me feel grounded on the earth. It helped me recognize my people pleasing and this group even lead me to multiple breakthroughs. Group made me feel like I can move forward with my life and that I’m not stuck. I am so grateful to have been let into a safe space such as this and I hope you all never stop doing this.” – Trauma Therapy Client

“My therapist’s compassion to me as a sexual assault survivor was extremely genuine and each time I left a therapy session, I felt both understood and validated. The way she was able to help me navigate my trauma and process my emotions was truly life changing and life saving in a time that I needed it the most.... I really wanted to express my positive experience with her and also thank not only my therapist, but Resilience for allowing these resources and opportunities to work with amazing therapists.” – Trauma Therapy Client

”

EDUCATION & TRAINING

“I learned that you have your own boundaries and others have to respect them.”
– 5th grade Youth Multisession student

Overview:

Resilience provides high-quality, age-appropriate, evidence-based, and trauma-informed education through our Education and Training program. We facilitate in a variety of settings to both adults and young people. Types of programming available include professional trainings, youth programs, and community engagement. Every prevention education workshop teaches participants how to identify elements of rape culture, recognize and reduce risk factors for sexual violence and become agents of change in their own communities.

Rewriting curriculum, IL Afterschool Network, Chicago Park District:

Our Education and Training team spent the beginning of the year rewriting and adapting our curriculum for youth-facing programming to be taught virtually. Beyond the many students they teach, they also devoted more time this year to the adults who spend time with these students, making sure that they had resources and information about how to support these students if they are trauma or abuse happening at home. Education and Training facilitated a statewide workshop with the IL Afterschool Network as part of their conference, which was attended by 150 individuals. Our team is honored to begin an ongoing partnership with the Chicago Park District and to help cultivate a culture of consent and support for survivors in their community, which has continued into FY22 as well.

“I learned that it’s never your fault if you get sexually touched or if you’re too scared to tell someone that you’re getting touched.”

– 4th grade Youth–Multisession student

87%
youth grades K-2 know they
are the boss of their own body

85%
youth grades 6-8 know at
least 1 person or place
they can go to for help

TRIBUTE TO DANI

In May 2021, Resilience grieved the loss of our Director of Education and Training, Dani Boachie. During their time with Resilience and with many other organizations and spaces, Dani brought a passion for reproductive justice, gender-based violence, sex work decriminalization, prison abolition, anti-imperialist movements, and LGBTQIAA+ sexual health and relationship education. The impact they had on these movements was immeasurable. Dani’s passion for these causes was strong and drove their work as an activist for over a decade. Dani was a bright light and a strong, fearless voice in all of the many places they worked, organized, and engaged. Their communities, near and far, were made better by their passion, dedication, and courage in all that they pursued. Resilience hopes to continue to honor their legacy by bringing Dani’s passion for ending gender-based violence to our current and future endeavors. We cherish the time we had with Dani and will continue to honor their legacy.

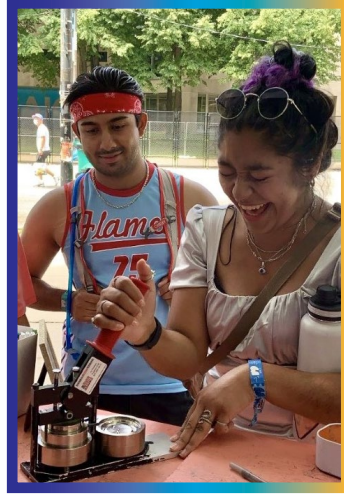

OMMB

The mission of Our Music My Body is to bring consent education, bystander intervention and violence prevention to the Chicago music scene in an effort to promote safety overall. Taking an intersectional approach, the belief was that preventing sexual violence in this specific community could have a ripple effect into other areas of people's lives.

In past years, OMMB has met music fans where they are - at concerts, festivals, and venues. While we still did this when possible and safe, OMMB also continued to expand their reach in new directions this year. This led to a partnership with Shawna Potter, musician and author of Making Spaces Safer. Shawna and OMMB collaborated on five webinars throughout the year. They explored topics specialized to audiences such as musicians, independent venue owners, and live music fans. This partnership helped to expand the visibility of the OMMB campaign and engage with music fans and our community despite the fact that live show weren't happening for much of the year.

KEEPING ILLINOIS YOUTH HEALTHY AND SAFE ACT: PASSED AND SIGNED INTO LAW

Keeping Youth Safe and Healthy Act (SB 818) creates personal health and safety standards for grades K-5 and updates and expands comprehensive sexual health education standards in grades 6-12 to give young people the information and tools they need to be safe and support responsible and informed decision making about their health and well-being throughout their lives. These topics include but are not limited to: anatomy and physiology; healthy relationships; identity; personal safety; pregnancy and reproduction; puberty, growth and adolescent development; and sexually transmitted infections, including HIV. It also expands the current requirement that instruction be medically accurate, developmentally and age appropriate to include instruction that is also culturally appropriate, inclusive, and trauma informed. The bill also ensures that comprehensive personal health and safety and sexual health education in Illinois is affirming of identities including those who historically have been stigmatized or excluded including LGBTQIA and pregnant or parenting youth.

STRENGTHENING CONFIDENTIALITY IN RESTORATIVE JUSTICE PRACTICES: PASSED AND SIGNED INTO LAW

This bill removes barriers to participation in Restorative Justice practices by establishing a limited privilege, similar to that used in mediation, to make communications inadmissible in later court proceedings.

AMENDING THE DEFINITION OF RAPE CRISIS ORIENTATION IN THE CONFIDENTIALITY OF STATEMENTS MADE TO RAPE CRISIS PERSONNEL: PASSED

In a recent Cook County case, People v. Deleon, there was a motion to access a survivor's rape crisis center records. The Defendant argued that a multiple-service agency does not qualify as a "rape crisis organization" for purposes of privilege because it does not have "the major purpose" of serving survivors (as is reflected in the definition of rape crisis organization). ICASA worked to amend the privilege statute (735 ILCS 5/8-802.1(b)(1)) to clarify that the definition of a Rape Crisis Organization includes multi-service agencies and all agencies certified by a statewide sexual assault coalition.

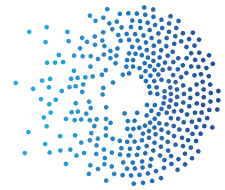

SASETA AMENDMENT: PASSED AND SIGNED INTO LAW

SB 577, which became law in June 2020, is a temporary amendment to SASETA to allow medical forensic services, including evidence collection, to be provided to survivors at Approved Federally Qualified Health Centers (AFQHCs) during and 90 days after a statewide public health emergency declaration. It was set to be repealed on June 30, 2021. We worked and supported an amendment to extend the bill by six months, to December 31, 2021.

IMPROVING CRIME VICTIMS' RIGHTS: PASSED AND SIGNED INTO LAW

ICASA's revised crime victims' rights enhancement language was combined with several other changes to SASETA and SAIPA. Other provisions in the bill include a one-year extension to the Qualified Medical Provider (QMP) requirement in SASETA, an extension of six months for approved Federally Qualified Health Centers to offer medical forensic exams (to 12/31/2022) and required notices about the Illinois State Police Sexual Assault Evidence Tracking System. ICASA's amendment to the Rights of Crime Victims and Witnesses Act includes:

- A requirement that prosecutors must offer to meet with a victim about a no charge decision with an advocate, attorney, and/or a support person allowed to be present;
- Timely notice of no charge decisions;
- The victim or victim's attorney may be heard on a victims' rights motion contemporaneously with the prosecutor unless prosecutor objects;
- Starting in 2023, the Office of the Attorney General (OAG) will receive and investigate complaints regarding crime victims' rights and create trainings and recommendations for state agencies and officers;
- A victim may file a complaint for mandamus, injunctive or declarative relief;
- Court may require training by the OAG for a state officer who it finds violated crime victims' rights;
- A process for when a prosecutor subpoenas a victim's confidential information without the victim's consent, which requires at least 21 days' written notice; and
- A clarification that a victim who does not consent to release confidential information to the prosecutor is not considered uncooperative and still has crime victims' rights.

LEGISLATIVE NEWS

PNA REPEAL: PASSED (AWAITING JB SIGNATURE)

This year we supported successfully repealing the Parental Notice of Abortion Act, which required a healthcare provider to notify an adult family member (parent, grandparent, step-parent living in the home, or legal guardian) at least 48 hours prior to performing an abortion for a patient under 18. The Parental Notification Act was a harmful policy that prevented young people from accessing abortion care without the notification of a parent or guardian.

ENSURING SUCCESS IN SCHOOLS BILL (ESSL): PASSED AND SIGNED INTO LAW (RESILIENCE HAS BEEN WORKING ON THIS SINCE ABOUT 2009!)

ESSL works to support elementary and secondary students who are survivors of gender-based violence (think the k-12 version of the Preventing Sexual Violence in Higher Education Act). Under EESL, at least one staffer in each school would be trained to respond to disclosures of GBV or harassment. Schools would be required to implement confidentiality procedures for students to disclose their experiences as well as grievance procedures if student accommodations are denied. The bill also clarifies what proofs are required in order to minimize re-traumatization and limit the number of times child survivors are questioned.

VIRTUAL EVENTS

Resilience launched a series of virtual events in FY21 to protect the safety of our community and staff. Participation was high, proving that regardless of what is going on in the world, our supporters will be involved in Resilience's quest to end sexual violence.

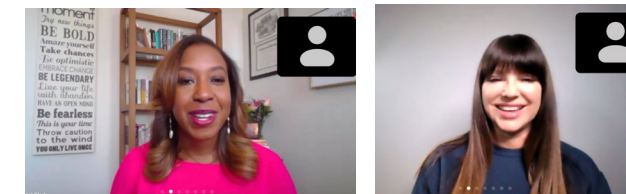

EVENING OF IMPACT

September 2020 saw the launch of our first ever virtual Evening of Impact. Our 17th annual Evening of Impact: Everyone Empowered honored our ambition to empower everyone to create a culture of support and accountability and to end sexual violence. Over 200 friends and allies attended the virtual event, including Illinois Supreme Court Justice Anne Burke who provided the introduction. Thanks to the incredible generosity of our sponsors and supporters, we raised over \$97,000 to fund our mission and programs.

CELEBRATING RESILIENCE LUNCHEON

Following the incredible success of the virtual Evening of Impact, Resilience also decided to host our annual Celebrating Resilience Luncheon virtually in May 2021. U.S. Senator Dick Durbin provided welcome remarks during the Luncheon. The Luncheon featured Special Guest Speaker Julie Smolyansky, President and CEO of Lifeway Foods and co-founder of Test400k, an organization dedicated to advocating ending the backlog of 400,000 untested rape kits in the United States.

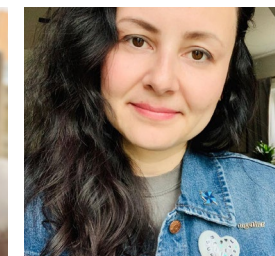

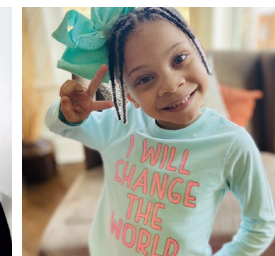

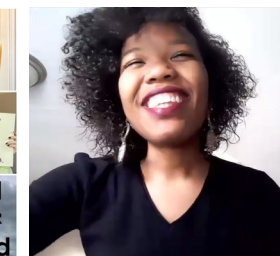

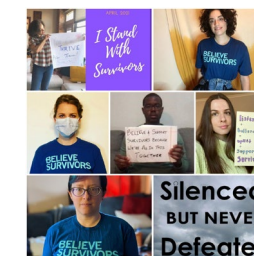

CELEBRATING RESILIENCE SPEAKER SERIES

In this inaugural program, Resilience brings experts from the community to speak on topics relevant to sexual violence or that have broader impact on our community. Our first Speaker Series speaker was Resilience Board member Dr. Crystal Clark, Associate Professor, Psychiatry and Behavioral Sciences and Obstetrics and Gynecology at Northwestern Medicine, who hosted a discussion on mental health, wellness, and learning to be resilient in our current environment. We were also proud to feature and host a thought-provoking conversation with survivor, activist, advocate, lobbyist, nurse, and mother Brenda Tracy.

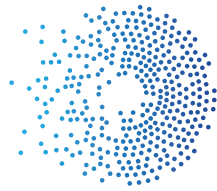

DINNER TABLE DIALOGUES

2021 brought in a new initiative founded by Jean Cozier, a major Resilience donor and founder of Awakenings, a non-profit dedicated to making visible the artistic endeavors of survivors of sexual violence: Dinner Table Dialogues. In these monthly meetings, Dinner Table Dialogues brought together passionate, active supporters who are interested in using their voices and platforms to bring a greater awareness of the impact of sexual violence on our culture.

SEXUAL ASSAULT AWARENESS MONTH (SAAM)

April 2021 was Sexual Assault Awareness Month, one of the most important months of the year for Resilience. During SAAM, Resilience hosted 13 events attended by 304 people. Resilience supporters hosted 32 online fundraisers, inspiring 356 donors to give and raising over \$18,000. Events included launching the new Pleasure Activism series on YouTube, a comedy show, Associate Board trivia night, Breaking the Silence Café, and Resilience's signature SAAM event, Standing Silent Witness.

HOW YOU CAN HELP - GETTING INVOLVED

JOIN OUR COMMUNITY

- Become a volunteer medical advocate
- Intern at Resilience
- Join our Board of Directors or Associate Board

VOLUNTEERS

Overview:

The reach that Resilience has with hospitals across the city would not be possible without the hard work and dedication of our volunteers. Volunteer advocates aid survivors in a number of ways -supporting them during hospital examinations, guiding them through legal processes, providing crisis intervention counseling and more.

In FY21, we trained 64 new volunteers, bringing our total number of volunteers to 102 and increasing our capabilities to assist even more survivors during this time of crisis. This year volunteers provided 10,932 hours of advocacy and support. All of our volunteer advocates have to complete a 60-hour training and then sign up to be on call for two 12-hour shifts each month. Resilience gained many new passionate and skilled volunteers this fiscal year whom we are incredibly grateful to!

Celebrating Our Corporate Sponsors

Resilience's corporate partners' generous support allows Resilience to provide our programs and services completely free to the survivor. We thank these partners for their financial support and commitment to empowering survivors and ending sexual violence. We are grateful for these partnerships that allow Resilience to expand our reach and impact in our community!

Tom Andreesen, former President of Resilience's Board of Directors, is Protiviti's Managing Director and Chicago Office Lead. We are so grateful to Tom for his leadership and for Protiviti's continued support. We extend Protiviti our deepest gratitude for their commitment to empowering survivors and ending sexual violence.

We could not do our work without the support of all of our corporate sponsors.
